REQUEST TO REVERSE HOLDING OF ABANDONMENT
UNDER MPEP §711.03(e)

Commissioner for Patents
Washington, D.C. 20231

Sir:

Applicants thank the Examiner for taking time to discuss this application on January 2, 2002. On November 14, 2001, Applicants submitted a Response to the Office Action dated May 18, 2001, along with a petition and fee for three-month extension of time. Copies of these materials are enclosed. Receipt by the Patent Office on November 14, 2001, was acknowledge by return postcard (copy enclosed). A Notice of Abandonment was mailed in error on December 1, 2001.

The above facts were explained to the Examiner during the telephone discussion on January 2, 2002. The Examiner asked that Applicants submit this communication to complete the record of the above application.

CERTIFICATE OF MAILING (37 C.F.R. §1.10)

I hereby certify that this paper (along with any referred to as being attached or enclosed) is being deposited with the United States Postal Service on the date shown below with sufficient postage as First Class Mail in an envelope addressed to the Commissioner for Patents, Washington, D.C. 20231.

RESPONSE TO OFFICE ACTION

In response to the Office Action mailed May 18, 2001, please consider the following.

REMARKS

Reconsideration of the rejections set forth in the Office Action dated May 18, 2001, is respectfully requested.

The Examiner rejected claims 19 and 23-28 under 32 U.S.C. 102(b) as being anticipated by Barbut, et al., U.S.P.N. 5,769,816. Applicant calls the Examiner's attention to the reference date of the cited art, which is June 23, 1998, the issue date of the patent. Applicant attaches the filing receipt for the pending application as Exhibit A. Referring to Exhibit A, the present application is a CPA of U.S.S.N. 09/467/293, filed December 17, 1999, which is a continuation of U.S.S.N. 09/387,634, now U.S.P.N. 6,176,851, filed August 31, 1999, which is a continuation of U.S.S.N. 08/993,202, now U.S.P.N. 6,048,331, filed December 18, 1997, which is a continuation-in part of U.S.S.N. 08/854,806, now U.S.P.N. 6,231,544, filed May 12, 1997, which is a continuation-in part of U.S.S.N. 08/645,762, now abandoned, filed May 14, 1996.

Applicant respectfully asserts that the Examiner's rejection is improper for a 102(b) rejection, because the reference date of the art cited does not predate the effective date of the application by at least a year. Setting aside, for the moment, the continuations-in-part in the domestic priority lineage, the present application is at least entitled to a filing date of December 18, 1997, the earliest date from which priority is claimed through continuations. (Earlier dates are claimed through continuations-in-part, the analysis of which is not required for the purposes of responding to this Office Action.) Thus, the effective date of the present application is at least as early as December 18, 1997, which predates the reference date of the cited art, June 23, 1998.

Patent
247/062

For the reasons listed above, the art cited by the Examiner cannot stand as a 102(b) reference to the present application. Thus, Applicant respectfully requests reconsideration and favorable action on the merits of the claims of this Continuing Prosecution Application. The Commissioner is hereby authorized to charge any additional fees, which may be required, to Deposit Account No. 12-2475.

Respectfully submitted,

LICENSE FOR FOREIGN FILING UNDER

Title 35, United States Code, Section 184

Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
